

Day 3

1 $0.875 \times 56 = \underline{\hspace{2cm}}$.

- 2 In parallelogram $ABCD$, AE is perpendicular to DC . AB is 10 cm, AE is 5 cm, BC is 7 cm, and the area of parallelogram $ABCD$ is $\underline{\hspace{2cm}}$ cm^2 .

- 3 Find the area of each triangle below. (Unit in cm)

For figure (1), the area of the triangle is $\underline{\hspace{2cm}}$ cm^2 .

For figure (2), the area of the triangle is $\underline{\hspace{2cm}}$ cm^2 .

- 4 As shown in the figure below, find the area of the trapezoid. (Unit: centimeter)

- 5 The figure below consists of a rectangle and a right triangle. Find the area of the entire figure.
